

Japheth Mwinekpieng Lamuo

JUNIOR BACKEND ENGINEER

Accra, Ghana | +233 592209203 | lamuojapheth@gmail.com | <https://github.com/Japheth-I> | www.linkedin.com/in/japheth-lamuo |

Professional Summary

Backend Developer skilled in Node.js, Express, and MongoDB, with hands-on experience building and deploying secure REST APIs. First-year Electrical & Electronics Engineering student seeking remote junior backend opportunities and freelance projects.

Technical Skills

- Languages & Runtime: JavaScript (ES6+) Node.js
- Frameworks & Libraries: Express.js Mongoose Joi
- Databases: MongoDB MongoDB Atlas Full-text Search Compound Indexing
- Tools & Platforms: Git & GitHub Render dotenv REST APIs JWT

Projects

Personal Knowledge Base / Notes API

Node.js · Express · MongoDB · Joi

- Production-ready REST API with full-text search (MongoDB text indexes), compound indexing on userId + createdAt, and Joi validation on all request bodies.
- Custom error-handling middleware; deployed to Render with dotenv-based environment config.

Blog API with JWT Authentication Node.js · Express · MongoDB · JWT

- User auth with bcryptjs password hashing and stateless JWT; protected create/update/delete routes while keeping reads public.
- Debugged dotenv v17 incompatibility and Mongoose returnDocument API migration in production.

E-commerce Product Management API (Team)

Node.js · Express · MongoDB

- Built paginated product endpoints with regex search and parallel queries via Promise.all; managed Git collaboration and branch conflict resolution.

Education

University of Energy & Natural Resources, Sunyani

January 2026 - Present

Electrical & Electronics Engineering

Betechified Tech Academy, Nigeria

April 2026 - Present

Backend Development Track

Other

Built a full restaurant website (Veggies and Grills, Accra) as a client pitch project — first self-directed frontend build.
